

Skip the line.

Get your prescriptions shipped right to your door.

Rather than making a trip out to the pharmacy, you can get your prescriptions shipped to you at no extra cost. When it's time to refill, your pharmacist will reach out to make sure you get your medications when you need them. Switch today and experience the difference.

Why switch to prescription delivery?

Personalized care

Your pharmacist will get to know you and provide personal consultations. They'll help explain and discuss drug interactions, drug therapies, medication profiles and more.

Convenience

Instead of driving to your local pharmacy every time you need to fill a prescription, stay home and let your prescriptions come to you.

Synced prescriptions

If you have multiple prescriptions, we'll consolidate them into a single consistent refill. That way it's all mailed to you in one shipment.

Cost savings

We'll save you money with our low-cost generics, reduced co-pays and 90-day fills. You can also get discounted over-the-counter medications shipped in your prescription delivery.

Call your pharmacy to get started.

Bath & Body Works Wellness Center | 380-529-4024

Who can use these services?

All BBW associates can utilize the onsite pharmacy for your prescription needs, and Ohio associates can have prescriptions mailed to your home.

BBW Pharmacy Hours
Monday - Thursday 8:30am-5:30pm
Friday 8:30am-12:30pm
